Simon Spells™

spelling tutor tracks progress

- 3 Educational Benefits**
- 1,000 Dolch, high frequency and essential beginning words.
 - Detailed reports of students' progress.
 - Three types of printed worksheets.

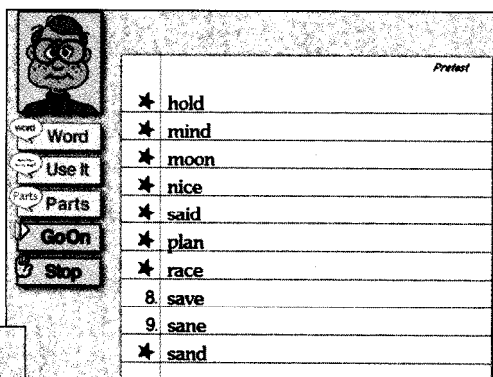

Simon Spells is an innovative, new spelling program that helps students learn to spell. Created by leaders in educational research and technology Simon Spells is based on successful, proven teaching strategies.

By choosing either Simon or Susan as their tutor, children are guided through individualized instruction at their own pace. Children also have an opportunity for independent practice.

Throughout the program, the spelling tutor offers positive verbal and written feedback to aid in the learning process. Spelling lessons are tracked and timed to improve experience and prevent frustration.

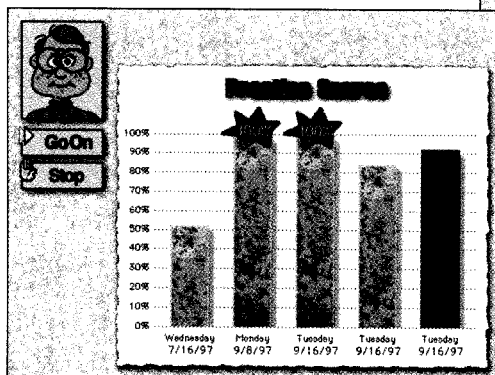

Word lists include all the Dolch vocabulary words and 500 of the words most frequently used in reading and writing. In addition, the

spelling tutor presents words phonemically to help students struggling with difficult words. Words are presented in context of sentences to help increase vocabulary comprehension as well as improve spelling skills.

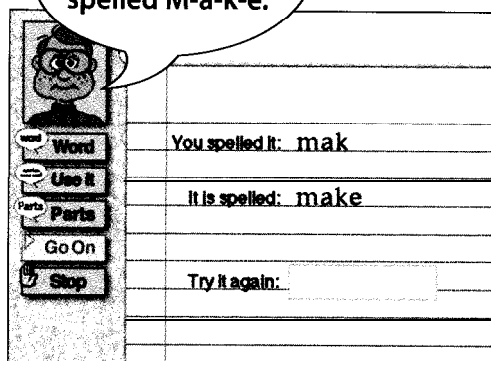

Simon Spells begins with a pretest. Students have a successful experience and the program tracks the words the student spells correctly and incorrectly.

Simon Spells regularly rewards students and lets teachers know how they are doing.

Great for Teachers!
Simon Spells tracks student progress and stores the results!

You spelled it "mak". "Make" is spelled M-a-k-e.

The tutor gives students visual and auditory feedback on how to spell a word.

Simon Sounds It Out and Simon Spells are based on the best research and grounded in extensive field testing. Students move at their own pace, enjoy individualized lessons and receive extensive practice on the skills necessary for mastering phonological awareness and spelling.

-Laura Goin, M.Ed, and Ted S. Hasselbring, Ed.D.
